

**Product: SEATS**

*Embrasse* is a family of chairs signed by Jorge Pensi, in which you can find both typical office type executive chairs for waiting areas and lounges.

The work chairs, realised with a multilayer frame structure, are realised in an enveloping organic design, broken by taut lines for a high level of comfort.

The arm extends behind the backrest giving continuity and uniformity to the lines. For *Lounge* and *Grand Relax* versions, in the different models of chairs and sofas the structural frame is in multilayer Beech and Poplar wood, supporting the spring system of elastic bands.

The padding is in differentiated density Polyurethane foam to guarantee the correct ergonomic function of the chair.

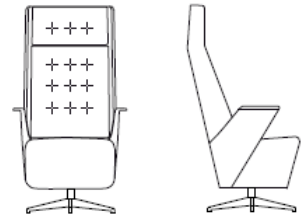

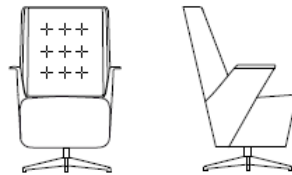

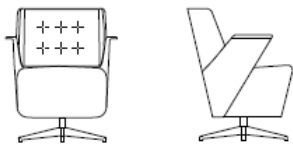

For *Hall* and *Conversation* version, the backrest is in coldpress foam with metallic insert. Outstanding attention to the stitching details enhance the quality of the proposal and identify the manual skills typical of our company.
